

Heritage Policy

Abra Mining Pty Limited (“AMPL” or the “Company”) recognises and acknowledges the Nharnuwangga Wajarri and Ngarlawangga peoples, past, present, and emerging who are the traditional custodians of the land on which the AMPL project is located. AMPL also recognises that the Company cannot operate or be successful without fully integrating heritage considerations into our daily activities and processes.

To achieve this, AMPL aims to:

- work closely with the traditional owners to continually appreciate and understand the heritage values and country;
- comply with and, where appropriate, exceed the requirements of applicable legislation, regulations, and other standards to which we subscribe;
- promote heritage awareness among our personnel and contractors to increase understanding of their roles and responsibilities in heritage management;
- develop our people and provide resources to meet our heritage objectives;
- ensure that heritage issues are integrated into the decision-making process of the Company’s exploration and mining activities;
- identify and assess the potential heritage effects of our activities and manage heritage risk;
- continually improve and regularly monitor our heritage performance; and
- at all times maintain an open and honest relationship with the traditional owners and stakeholders.
